Certification target

Video consultations are basically defined as synchronous communication between a doctor and a patient known to him, via the technical equipment available to the patient (peer-to-peer), if necessary with assistance, e.g. by a reference person, in the sense of an online video consultation in real time, which the doctor can offer the patient.

The certification target in the sense of the technical procedure for video consultation in accordance with Annex 31b to the Bundesmantelvertrag-Ärzte (BMV-Ä) with the associated interfaces for the processing of personal data is the data processing by the information-processing system:

- Telemedizin Premium

It consists of the telemedical function: implementation of online video consultations. The evaluation covers the certification target, the conduction of the video consultation (medical consultation) and its termination.

The operator of Telemedizin Premium is the company:

- T-Systems International GmbH, Hahnstraße 43d, 60528 Frankfurt am Main, Germany

and its branches:

- no branches

Field of application and exclusions of usage

The certification target is intended exclusively for the following field of application:
